## Welcome to 2021

We, at NESST, hope you have all had at least a bit of a break and are ready for an action packed 2021 and the beginning of the Decade of Healthy Ageing!

Sector Support and Development funding has been extended into 2022 in-line with other CHSP service types. We are currently reviewing our service delivery model to ensure that it meets revised requirements. Watch this space.

There are a few due dates coming up at the end of the month on most of our calendars including the migration of grandfathered clients and ACNC reporting.

## United Nations General Assembly declares 2021-2030 the Decade of Healthy Ageing

On 14 December, The United Nations General Assembly declared 2021-2030 the [Decade of Healthy Ageing](#).

“Today’s announcement of the UN Decade of Healthy Ageing sends a clear signal that it is only by working as one, within the United Nations system and with governments, civil society and the private sector, that we will be able to not only add years to life but also life to years,” said Dr Tedros Adhanom Ghebreyesus, Director-General of the World Health Organization, in response to today’s development.

“By adopting a UN-wide approach in support of healthy ageing, we will be able to galvanize international action to improve the lives of older people, their families and communities, both during the [COVID-19 pandemic](#), and beyond,” added Dr Etienne Krug, Director of the Department of Social Determinants of Health at WHO.

Health is central to our experience of older age and the opportunities that ageing brings. Initiatives undertaken as part of the Decade will seek to: change how we think, feel and act towards age and ageing; facilitate the ability of older people to participate in and contribute to their communities and society; deliver integrated care and primary health services that are responsive to the needs of the individual; and provide access to long-term care for older people who need it.

The UN Resolution, which follows recent endorsement of the Decade by the World Health Assembly, expresses concern that, despite the predictability of population ageing and its accelerating pace, the world is not sufficiently prepared to respond to the rights and needs of older people. It acknowledges that the ageing of the population impacts our health systems but also many other aspects of society, including labour and financial markets and the demand for goods and services, such as education, housing, long-term care, social protection, and information. It thus requires a whole-of-society approach. <https://www.who.int/news/item/14-12-2020-decade-of-healthy-ageing-a-new-un-wide-initiative>

## **CHSP grandfathered client additional migration – Reminder: My Aged Care provider portal now open**

The My Aged Care provider portal opened on Monday 23 November 2020 and closes on 11.59pm AEDT Friday 29 January 2021 to:

upload your grandfathered client data using the new data collection template – the previous template cannot be re-submitted into the provider portal

enter client service information

There will be no extensions.

‘Grandfathered clients’ are people who received services before the CHSP began and who are not yet registered in My Aged Care.

### **Reminders/tips**

If grandfathered clients are unwilling to give you the necessary information, let them know there is no impact on their current services.

You need to collect a unique identifier (Medicare, DVA or CRN number) for successful migration.

There are no ‘offline’ options for submitting the data collection template (spreadsheet) – you must upload it using the My Aged Care provider portal and enter service information for each client.

Providers MUST use the new data collection [template](#).

Some providers have uploaded their client information in the provider portal but have not submitted the final information – click ‘submit’ once all clients’ statuses are ‘ready to submit’.

Find detailed information about this data collection process on the department’s website at [CHSP News](#).

## 5 things charities and NFPs should know about the new Director

### Identification Number

In June this year, laws were passed to introduce a new director identification number (**DIN**) requirement. Although the DIN requirement is unlikely to commence before June 2022, it is nevertheless worth understanding what is ahead and planning accordingly. A DIN is a unique identifier number to be issued to each person who is a director or acting alternate director of a company or the equivalent role (such as a management committee member) of some incorporated associations.

Once a person's identity has been confirmed, they will be issued with a single DIN which they will keep permanently even if they cease being a director, change directorships or act as a director for multiple organisations.

Positive Life NSW works to promote a positive image of people living with and affected by HIV with the aim of eliminating prejudice, isolation, stigma and discrimination. They provide information, targeted referrals and advocate to change systems and practices that discriminate against people living with HIV (PLHIV), their partners, friends, family and carers in NSW.
